

DISCOVER HOW OUR SPA FITTINGS FIT RIGHT IN.

Add customizable massage action to any spa with Hayward® hydrotherapy fittings.

- » Interchangeable nozzles allow for custom jet configurations and hydro-massage action
- » User can control water and air flow at jet face, providing a variety of therapy options (Adjustable JetAir® III system only)
- » Balanced hydraulics let user mix and match jet nozzles without affecting system performance
- » Universal nozzle retrofitability allows users to update nozzles at any time
- » Fittings are intended for fiberglass and stainless spas, but can also be used in gunite and plaster applications
- » Fittings are compatible with JetAir III and Adjustable JetAir III systems

Note: Body and nozzles must be sold together for complete assembly

Pair with **Hayward Spa Blowers** for powerful, soothing bubbles and exceptionally quiet performance.

SP1434 VariFlo® Jet

SP1437 Whirl-Flo Jet
